

Rewrites of 100 GSM-style problems vs. the original (nl_base). Blue = answer preserved; orange, hatched = answer changed by a one-digit edit. Fork rate: first-divergence-layer event vs. nl_base, forced-k=8 exploratory run. Answer-changed rate: gate G2 (greedy, thinking off); nl_break returned the old answer 0/100 times and its new answer at 67% accuracy (nl_base: 70%).
